ABOUT ME

Artistic Photographer

I am an energetic and enthusiastic artistic photographer who enjoys challenges and achieving personal goals. I am self-motivated, positive and hard working. I am keen to discover new ways to represent identities through photography. The opportunity to learn new skills and work with new agencies is particularly attractive to me. I am very patient and friendly, I am always calm in high pressure situations. I have worked as backstage photographer, art director and fashion photographer. I love living in a place full of art and positivity. In all my works I try to explore and expand human feelings.
